Subject: HB 517

As I just told you, I am at this point only wanting to explore with you your group's views related to an amendment to HB 517. Let me assure you, this is not a formal suggestion from this Office, as I have not yet discussed these ideas with others. Also, as we discussed, I think the amendment would strengthen what the bill seeks to accomplish, not weaken it. Let me know what you think. Thanks.

Ann (444-3558)
